1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

At the end of the amendment to the specification received 06 August 03, before the period, the following has been inserted --, now patent number 6,671,969--

On line 1 of claims 2,4-7, the phrase --saw having a reciprocating—has been inserted before “shaft”.

At the end of line 1 of claim 2, “for a reciprocating saw” has been deleted.

2. The amendment to the claims has been made to correct incongruent titling, and does not change the scope of the claim. The saw had been given full patentable weight already, since the bearing was fixedly mounted to the saw.

In regards to the bearing being fixedly mounted to the saw, this is interpreted as meaning that the bearing is non-rotatable relative to the saw housing. Made of record but not making Applicant's invention obvious is a patent to Bechtold showing a bearing (55) that is rotatable relative to the housing.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ken Peterson whose telephone number is 571-272-4512. The examiner can normally be reached Mon-Thurs, 7:30AM-5PM

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan Shoap can be reached on 571-272-4514. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>.
